Patient

Thursday, Oct. 29

Noon - 1:30 p.m. MT

1:30 - 2:00 pm MT panel discussion

(optional dialogue with panel)

**Join us for an African American cultural awareness webinar
that will address the following objectives:**

- Describe cancer incidence, prevalence and mortality trends
- Identify differences among African American groups from different US geographical localities and from other countries
- Describe how African American health care beliefs influence interactions with the health care team and system
- Identify challenges and barriers to enrollment in clinical trials
- Identify promising practices related to increasing enrollment in clinical trials
